MAIN AREAS OF EXPERTISE

As an Adult General Psychiatrist I have broad experience in all types of mental abnormality and mental illness including schizophrenia, mood disorders, anxiety, phobias, PTSD and alcoholism, as well as patients with concurrent drug problems. In my private practice I see patients referred to me for specialist opinions in a wide spectrum of psychiatric disorders, and in my practice at St Thomas' Hospital I specialised in giving psychiatric opinions on patients who have concurrent medical, surgical or gynaecological problems and I therefore worked closely with my colleagues in other branches of medicine. Over the years I have become increasingly involved in medical-legal work, specialising mainly in the psychiatric assessment of parents (especially mothers) especially where psychiatric illness, substance misuse and domestic violence are involved, and also in personal injury matters, and I also undertake some capacity assessments.

MEDICOLEGAL REPORTS

Over the last few years around 70 reports have been produced for Harris Temperly Solicitors, Fisher Meredith Solicitors, Tuckers Solicitors, HE Thomas and Co., Philcox Gray and Co., Thomas Dunton Solicitors., Wilson & Co., Lewis Nedas, Alexander & Partners, Vickers & Co, Sanders Witherspoon, Sumnar & Tabor, Owen White & Catlin, Fancy & Jackson, Powell Spencer, Morrison Spowart, HCL Hanne & Co Solicitors, Kaim Todner, Mullinger Banks, Gillian Radford & Co, Osborne's Solicitors, Duncan Lewis Solicitors, Wandsworth Council Legal Services, Hornby & Levy, Simpson Miller and Janet Thompson Solicitors. I have attended a Bond Solon Expert Witness course in report writing in the past. Reports are usually available a maximum of 6-8 weeks after receiving the letters of instruction and usually sooner. Clients are usually seen in Edward House (2 minutes from Marylebone Station), but currently virtually on Skype. I have appeared in court on a number of cases, both in the have Family Courts and in the Civil Courts.
